

Children and Young Adults - Outpost Ideas - 2006

To: Mt. Kemble Lake Kids and Young Adults:

From: Planning/Community Input Committee

This survey are ideas for children and young adults that resulted from an outpost meeting held for kids earlier this year. We had 80% of the families with children age 8 to 16 years old represented!

Once completed, survey results will be presented at a special meeting for children. In addition, the committee put together recommendations for activities that will be submitted to the three boards for their consideration, as appropriate. It is anticipated that the three boards will use these recommendations as a critical component in formulating their long-range plans.

Your participation in the survey is very important because it will help shape the future of MKL. If you would like additional surveys for other members of your household, please contact John Murray at 973 425-0646 or-mail at johnm@arinc.org.

Completed surveys should be returned no later than May 15th to the Murrays at 63 Lake Trail East.
