

EMERGENCY AND INFORMATIONAL NOTIFICATION AT MT. KEMBLE LAKE

Mt Kemble Lake Call-Out Alerts

Mt. Kemble Lake uses an automated phone call-out system for important safety and community notices. Each resident family may have up to three phone numbers listed in this system. To request an addition or change contact John Murray at john@jimurray.us or call 973 425-0646..

If you have Caller ID, MKL calls will show as 973-425-4036, which is the phone number at the Clubhouse. Each emergency message will be prepared by the individual at the Lake who knows the most about that particular event. Questions about a particular message should be directed to that individual.

If you notice a condition that warrants activation of the system, Please notify any of the following:

Chris Allyn	973 425-1246 - The Lake and dam
Rick Barrett	973 425-1414 - The water system
Bobbi Coulter	201 321-7722 - General
Austin Godfrey	973 425-6491 - Association/Lakeshore
John Murray	973 425-0646 - General

Harding Township Announcements

The Harding Township Civic Association maintains an e-mail-based community information system for important notices of local interest. To register go to <http://www.hardingcivic.org/>. Near the bottom-right of the home page there is a field to enter an e-mail address. Experience shows the Civic Association only sends out e-mail containing important information on an average of once a month. You do not have to be a member to sign up but supporting the Civic Association helps support their mission which can be found here:

<http://www.hardingcivic.org/your-civic-association/our-mission.html>

Local Police and Safety Alerts -

The NJ state, Morris County and Harding Police Department send out important notifications, frequently involving critical safety information. Individuals who register can elect which type of notice and from which source they receive them. Go to: <http://www.nixle.com/> and on the home page select 'Sign up for Free'. On the next page enter your e-mail address, your own password, your name and a cell number that has SMS (Short Message Service/Text) capability.

The next page will ask for your location including city and ZIP code. It is suggested that you use Morristown and 07960 even though that may give you a few more alerts than you want. You can adjust that later.

The next step asks you to refer friends. You can ignore this and just select 'Skip & Finish'. You will then be asked for demographic information and you can ignore that as well.

The next page will show you all recent alerts you are signed up for. You can unsubscribe to sources by selecting 'Options' and then picking 'Unsubscribe'. When you do that you'll no longer receive any notifications from that agency.

Even better, to fine-tune alerts, select the "Settings" tab from the upper right and then select the level of alert you want from each listed agency.
